**BreathaLys<sup>TM</sup>** – Drinking Water Additive for Dogs and Cats  
**FRESHENS BREATH . REDUCES TARTAR . NO BRUSHING**

BreathaLys<sup>TM</sup> is a convenient home care dental solution for clients, unable or unwilling to use other direct application methods to maintain good oral hygiene for their dogs and cats.

BreathaLys<sup>TM</sup> employs a proprietary formulation of recognized oral hygiene ingredients including: Xylitol (from birch trees), Polysorbate, Potassium Sorbate, Sodium Benzoate. When these ingredients are combined with Chlorhexidene Digluconate in the correct proportions, they provide the synergistic activity of BreathaLys<sup>TM</sup> that helps freshen breath and reduce tartar.

- **REDUCES, NOT JUST MASKS, BAD BREATH; REDUCES TARTAR WITH DAILY USE.**
- **SAFE AND EASY TO USE; JUST ADD 2 CAPFULS (10mL) PER LITRE OF DRINKING WATER.**
- **USED DAILY AS DIRECTED, PROVIDES AN EFFECTIVE, DENTAL CARE OPTION FOR MOST PET OWNERS.**
