Dermacea™ Gauze , All Purpose Sponges and Stretch Bandage Rolls

Dermacea™ All Purpose Non-Woven gauze sponges are an ideal and economical dressing that provides high absorbency and material strength.

- Excellent absorption with virtually no linting
- Higher wicking properties than cotton gauze, providing superior performance for cleaning, prepping and scrubbing wounds.

Dermacea™ stretch bandage rolls provide an ideal dressing for securement, I.V.'s and splints while providing mild compression and support, all at an economical cost.

Features and Benefits:

- Finished edges which reduce the chances of granulomas or adhesions.
- Mild stretch which allows for joint flexion – increased or decreased swelling.
- Good memory – bounces back to reduce slippage.
- Soft surface for additional comfort.
- One ply cotton/polyester blend crocheted construction provides high absorbency while maintaining strength and durability of bandage roll.
- Variety of sizes allows optimal coverage for numerous applications.

Dermacea™ Gauze sponges offer veterinarians a cost effective alternative for non-sterile 12ply 100% Cotton gauze dressings.

Features and Benefits:

- Allows vertical wicking of fluid which prevents maceration and facilitates the transfer of fluid to a reservoir (ABD pad / Secondary dressing).
- Has superior debridement characteristics with the open weave aiding in the removal of devitalized tissue.
- Conformable which is essential for packing wounds with less dead space with no pooling of liquefied necrotic debris.
- Superior prepping characteristics with weave allowing for superior removal of dead tissue from skin surface.
